U.S. DEPARTMENT OF ENERGY
EERE PROJECT MANAGEMENT CENTER
NEPA DETERMINATION

RECIPIENT: District Department of the Environment **STATE:** DC

PROJECT TITLE : State Energy Program

Funding Opportunity Announcement Number	Procurement Instrument Number	NEPA Control Number	CID Number
DE-FOA-0000643	EE0000286	GFO-0000286-001	

Based on my review of the information concerning the proposed action, as NEPA Compliance Officer (authorized under DOE Order 451.1A), I have made the following determination:

CX, EA, EIS APPENDIX AND NUMBER:
Description:

A11 Technical advice and assistance to organizations	Technical advice and planning assistance to international, national, state, and local organizations.
A9 Information gathering, analysis, and dissemination	Information gathering (including, but not limited to, literature surveys, inventories, site visits, and audits), data analysis (including, but not limited to, computer modeling), document preparation (including, but not limited to, conceptual design, feasibility studies, and analytical energy supply and demand studies), and information dissemination (including, but not limited to, document publication and distribution, and classroom training and informational programs), but not including site characterization or environmental monitoring. (See also B3.1 of appendix B to this subpart.)

Rational for determination:

The U.S. Department of Energy (DOE) provided $190,000 of federal funding to the District of Columbia (DC) under the DOE's Annually Appropriated State Energy Program (SEP) for 2012. DC will provide $41,412.90 in state match.

DC proposes to fund the following market titles:

Energy Efficiency for Government Buildings
Under this Market Title, federal funding would be used to continue an outreach and education partnership that addresses smaller-scale energy issues that contribute to energy use in government buildings. Educational workshops would be conducted for DC government employees and a series of workshops would also be conducted.

Green Purchasing, Energy
Under this Market Title, federal funding would be used to distribute the EPP policy material throughout the DC government during the energy efficiency workshops conducted in DC government facilities. Federal funding would also be used to promote the most recent passage of the Procurement Act, Section and to ensure compliance with "Green Purchasing."

Promote Alternative Fuel & Transportation
Under this Market Title, federal funding would be used to continue participation in Clean Cities Activities along with Council of Governments. The Clean Cities committee would analyze practical approaches to implementing Smart Growth which includes public transportation initiatives. The staff would continue to monitor its fleet and promote the transition to a 100% alternative fueled fleet. No federal funding would be used to purchase vehicles.

School/Community Energy Education
Under this Market Title, federal funding would be used for personnel and benefits costs associated with implementing an "Energy Patrol Program." The Energy Patrol would consist of at least ten students per school and one teacher-coordinator that would be taught how to inspect their school building for energy waste. The students would inspect their school buildings daily for energy waste and recommend energy conservation measures. Approximately 25 classrooms would be enrolled in the Energy Patrol Program.

Based on a review of the activities that would be funded under the above Market Titles, DOE has determined the projects that would be funded under these Market Titles will not significantly impact the human environment and they are categorically excluded from further NEPA review under CX A9 "information gathering" and CX A11 "technical advice." Any activities funded under the 2012 annual appropriations that involve ground-breaking activities, retrofits, or equipment purchase and/or installation are conditioned pending additional NEPA review.

NEPA PROVISION

DOE has made a final NEPA determination for this award

Insert the following language in the award:

If you intend to make changes to the scope or objective of your project you are required to contact the Project Officer identified in Block 11 of the Notice of Financial Assistance Award before proceeding. You must receive notification of approval from the DOE Contracting Officer prior to commencing with work beyond that currently approved.

Insert the following language in the award:

You are required to:
Any activities funded under the 2012 annual appropriations that involve ground-breaking activities, retrofits, or equipment purchase and/or installation are conditioned pending additional NEPA review.

Note to Specialist :

DOE funding - $190,000

FIELD OFFICE MANAGER DETERMINATION

☐ Field Office Manager review required

NCO REQUESTS THE FIELD OFFICE MANAGER REVIEW FOR THE FOLLOWING REASON:

☐ Proposed action fits within a categorical exclusion but involves a high profile or controversial issue that warrants Field Office Manager's attention.
☐ Proposed action falls within an EA or EIS category and therefore requires Field Office Manager's review and determination.

BASED ON MY REVIEW I CONCUR WITH THE DETERMINATION OF THE NCO :

Field Office Manager's Signature: _____ Date: _____
Field Office Manager
