

NOTICE OF AVAILABILITY

The U.S. Department of Energy (DOE) has issued a Finding of No Significant Impact (FONSI) and Floodplain Statement of Findings based on the completion of an Environmental Assessment (EA) that analyzed the potential environmental impacts associated with the:

**Boise City Geothermal System Expansion Project
Boise, Idaho
DOE EA 1763**

DOE's Golden Field Office prepared an EA in accordance with the National Environmental Policy Act (NEPA). The City of Boise is proposing to use Federal funding to extend the City's geothermal system onto the Boise State University (BSU) campus. DOE has determined that providing funding for the Boise City Geothermal System Expansion Project does not constitute a major federal action significantly affecting the human environment, as defined by NEPA. The EA and FONSI are available for review on the DOE Golden Field Office website:
