- **Founded May, 2000**
- **BWXT Y-12, LLC Small Disadvantaged Business of the Year, 2003**

Overview. G2 Engineering & Management, Inc. (G2) was founded in May of 2000 and is headquartered in Oak Ridge, Tennessee. G2 is certified by the Small Business Administration (SBA) as an 8(a) small disadvantaged business and is also a State of Tennessee registered Disadvantaged Business Enterprise, (DBE) and a Minority Business Enterprise (MBE). G2 provides high quality engineering, project management, waste management, and construction services that focus on customer satisfaction and quality performance.

Performance. G2 has demonstrated outstanding performance on a national level in project management, safety basis management, readiness review and assessments, nuclear safety management, technical, administrative, and project controls/scheduling support services. G2 provides project management to BWXT-Y12 in support of National Nuclear Security Administration (NNSA) Operations. G2 personnel provide earned value analysis and reporting in the DOE environment and have been instrumental in assisting DOE and its subcontractors with all aspects of formal project planning, scheduling and reporting protocols. This assistance has included risk identification and management plans, project control plans, quality assurance plans, and safety plans as required by applicable DOE Orders and regulations.

Approach. G2 employees bring a formalized, disciplined approach to managing all aspects of work through the use of prioritized, detailed work plans and day-to-day management of tasks against priority, cost, and schedule. This approach has resulted in the successful implementation of numerous projects at various DOE facilities. Our combination of employee and client satisfaction results in a working environment that promotes employee dedication and loyalty, thus enabling G2 to fulfill its corporate mission statement: "To add measurable value to our clients by being responsible and dependable stewards in the conduct of day to day operations." G2 has received numerous commendations for expertise in planning, integration, and execution of all operations necessary to disposition materials. G2's recognized leadership has resulted in numerous letters of commendation from customers. G2 is committed to being reliable, dependable, and responsive to customer and job requirements, with the basic credo that **success is the only option.**
